Sore Hands Cured

Stroubled with hands so sore that when I put them in water the pain ald near set me crazy, the skin would peel off, and the flesh would hard and break, then the blood would flow from at least fifty places on each hand. Words can never tell the suffering I endured for three years. I tried at least eight doctors, but my hands were worse than when I commenced doctoring. I tried every old Granny remedy that was ever thought of without one cent's worth of good and could not even get relief. I would feel so badly mornings when I got up, to think that I had to go to work and stand pain for eight or nine hours, that I often felt like giving up my job, which was in the bottling works of Mr. E. I. Kerns, the leading bottler of Trenton, N. J., who will vouch for the truth of my sufferings. Before I could start to work, I would have to wrap each flager on both hands, and then wear gloves, which I hated to do, for when I came to take them off, it would take two hours and the flesh would break and bleed. Some of my friends who had seen my others would say "they would never work," and more would turn diagust. But thanks to CUTICURA, the greatest of skin cures, it my sufferings. Just to think, after doctoring three years, and g dollar after dollar during that time, CUTICURA cured me. It has a two years since I used it and I do not know what sore hands are. lost a day's work while I was using it or since, and I have been stated and it is a day of the sum business, and is acida, etc.

I never lost a day's work while I was using it or since, and I have been working at the same business, and in acida, etc.
